

Dev Panchal

Vadodara, Gujarat, India · [+91 84602 89432](tel:+918460289432) · devpanchal.web@gmail.com

[Portfolio](#) · [GitHub](#) · [LinkedIn](#)

SUMMARY

Final-year B.Tech CSE (AI & Data Science) student who ships AI-integrated full-stack products end to end. Ranked #8 among Coding Ninjas learners at Vibe2Ship, India's largest vibe-coding hackathon. Builds hand-coded WebGL/Three.js interfaces and maintains three live sites in production.

EDUCATION

ITM SLS Baroda University — Vadodara, Gujarat

B.Tech, Computer Science & Engineering (AI & Data Science) · 2023–2027 · CGPA 6.79 (Sem 7)

TECHNICAL SKILLS

Languages	Python · JavaScript · TypeScript · SQL · Java · C
Frontend	React 19 · Next.js 15 · Vite · Tailwind CSS · HTML5 · CSS3
3D & Motion	Three.js · React Three Fiber · WebGL / GLSL shaders · GSAP · Lenis
Backend & Cloud	Node.js · Express · Firebase (Firestore, Auth) · Google Cloud Run · Netlify · Vercel
AI & Data	Google Gemini API · Google AI Studio · IBM watsonx Assistant · Power BI · Excel · pandas
Concepts	LLM integration & prompt engineering · Agentic & multi-agent architectures · RAG · Responsible AI · DSA · Data Visualization

PROJECTS

Dev Panchal — Portfolio & 3D Web Experience

Solo build · Live · [devpanchal04.netlify.app](#) · [GitHub](#)

- Designed and built a scroll-choreographed WebGL portfolio on a single persistent Three.js canvas that survives route changes — no remounts, no white flashes — with camera, materials and geometry morphing between scene states.
- Generated the entire 3D identity procedurally in code: a DP monogram that resolves only from one viewing angle, an eleven-plate credentials archive, and a 46k-point particle field. No model files, no downloaded assets.
- Wrote custom GLSL shaders for the sweep lines, lightning discharge, card dissolve and footer fog, and drove every animation from one gsap.ticker loop with exponential damping so motion is frame-rate independent.

KAAM KARO — AI-Powered Deadline Survival App

Solo build · Vibe2Ship Hackathon (Coding Ninjas × Google for Developers) · [Live App](#) · [GitHub](#) · [Project Doc](#)

- Built a multilingual (English, Hindi, Gujarati) productivity app that uses the Google Gemini API to generate day-by-day task breakdowns and classify deadlines in real time as Safe, At Risk, Critical or Overdue.
- Engineered an autonomous "Rescue Mode" that triggers an emergency recovery plan when a deadline turns critical, plus a local fallback planning engine that keeps the app usable during API latency or rate limiting.
- Shipped the full stack solo on React 19, TypeScript, Vite and Tailwind, with Node.js/Express and Firebase Firestore + Auth, deployed to Google Cloud Run.

Panchal Gases & Panchal Enterprise — Live Business Websites

Two commercial sites in production · Netlify · [panchalgases7.netlify.app](#) · [panchalenterprise9.netlify.app](#)

- Designed and shipped two cinematic dark-theme marketing sites for industrial gas businesses, built on a hand-rolled scroll animation engine with zero third-party animation libraries.
- Implemented WebGL fragment-shader backgrounds, IntersectionObserver-driven scroll scenes and cursor-reactive tilt interactions while keeping page weight low and honouring reduced-motion preferences.
- Resolved live production issues across CSP headers, cross-device routing and map links; migrated transactional email from SMTP to the Resend HTTP API.

ACHIEVEMENTS

- Ranked #8 in the Top 15 Coding Ninjas learners at **Vibe2Ship** — India's largest vibe-coding hackathon, hosted by Coding Ninjas with Google for Developers, 2026.
- Certificate of Excellence (Top Performer) in both IIT Mandi TIH Live data analytics modules — Analytics & Excel, and Power BI.

CERTIFICATIONS

Jul 2026	AI Automation & Intelligent Solutions Internship — AICTE IBM SkillsBuild
Jul 2026	Intelligent Virtual Agents with IBM watsonx Assistant — IBM Training
Jul 2026	Make Agentic AI Work for You — IBM SkillsBuild — AI Agents, Multiagent Systems, RAG
Jun 2026	Getting Started with Generative AI — IBM SkillsBuild — Foundations, LLMs, AI Ethics
Jun 2026	Text Analytics 101 — CognitiveClass.ai / IBM Developer Skills Network
May 2026	Data Visualization with Power BI — IIT Mandi TIH Live × Coding Ninjas/NSDC
Apr 2026	Introduction to Analytics & Excel — IIT Mandi TIH Live × Coding Ninjas/NSDC
Apr 2026	Introduction to Agentic AI & LLM Architectures — Simplilearn
Jan 2026	Data Analysis Workshop, "Ignite the Future" — M. S. University of Baroda
